Application form for NGO

INTRODUCTION

This form is a document of reference that will help you to prepare your NGO registration, **it is NOT valid to register it.**

In order to register your NGO, you must enter the SELAVIP Project Management System (<https://application.selavip.org>) and fill in the online form to register your NGO. Once registered, you will be able to submit a project in the online form as long as and when the call for new projects is open. The application dates will be communicated through the SELAVIP website (<https://selavip.org>) and the SELAVIP Project Management System.

Due to the high demand and interest in participating in our calls to apply for projects to finance emergency housing, water systems, sanitation and land regularization, we want to inform all non-profit **ORGANIZATIONS** that **ARE NOT REGISTERED** in our System, that registrations will be open only until **February 28**. Any NGO registration that is carried out after that date will not be able to participate in the current call to submit projects.

The process of Review and Activation of Organizations will be resumed once the application process is finished, that is, on August 1.

This is an open invitation to register NGOs (organizations working in developing countries and poor urban communities). Once your non-governmental organization is registered you will then be able to present your project(s) once the call for new projects is open. Only NGOs registered through this system will be reviewed and considered in the application process.

All the information you provide is for SELAVIP use only. The information may be used by SELAVIP for internal purposes (reports, etc.). It is important to emphasize that the NGO registration in SELAVIP's system does not necessarily mean receiving any contribution from SELAVIP.
